Notice of Privacy Practices

This notice describes how medical information about you may be used and disclosed and how you can get access to this information. Please review it carefully.

THE HEALTH INSURANCE PORTABILITY AND ACCOUNTABILITY ACT OF 1996 (HIPAA)

HIPAA is a federal program that requires that all medical records and other individually identifiable health information used or disclosed by us in any form, whether electronically, on paper, or orally are kept properly confidential. This Act gives you, the patient, significant new rights to understand and control how your health information is used. HIPAA provides penalties for covered entitles that misuse personal health information.

MY PLEDGE REGARDING YOUR MEDICAL INFORMATION

I respect my legal obligation to keep health information that identifies you private. As obligated by law, I have prepared this explanation of how I am required to maintain the privacy of your health information and how I may use and disclose your health information. I do not use your health information in my office or disclose it outside of my office without your written permission. In some limited situations, the law requires me to disclose your health information without either a written or verbal consent.

USE AND DISCLOSURE WITH CONSENT

I will ask you to sign a consent form allowing me to use and disclose your health information for purposes of treatment, payment and healthcare operations in this office. I am not allowed to refuse to treat you if you do not sign the consent form.

I am permitted to use and disclose your healthcare records for the purpose of treatment and payment.

- Treatment means providing coordination, or managing healthcare related services by one or more healthcare providers. For example, I may need to share information with other providers or specialists involved in your care.
- Payment means activities such as obtaining reimbursement for services, verifying coverage, billing or collection activities and utilization review.

Unless you request otherwise, I may use or disclose health information to a family member or other personal representative to the extent necessary to help with your healthcare or with payment for your healthcare. In addition, I may use your confidential information to remind you of your appointments by leaving messages at home and/or work. Any other uses and disclosures will be made only with your written authorization. You may revoke such authorization in writing and I am required to honor and abide by that written request, except to the extent that I have already taken actions relying on your authorization.

USE AND DISCLOSURE WITHOUT CONSENT

In some limited situations, the law requires me to use and disclose your health information without your permission. These examples may never come up at my office at all, but such disclosures are:

- When a state or federal law mandates that certain health information be reported for a specific purpose.
- For public health purposes, such as contagious disease reporting and notices to and from the FDA regarding drugs and medical devices.
- Disclosure to government authorities about victims of suspected abuse, neglect or domestic violence.
- Uses and disclosures for health oversight activities, such as for the audits by Medicare, or for investigation of possible violations of healthcare laws.
- Disclosures in response to subpoenas or orders of the court.
- Disclosures for law enforcement purposes, such as to provide information about someone who is suspected to be a victim of a crime, or to provide information about a crime at our office.
- Disclosures relating to worker's compensation programs.
- We may share your protected health information with a third party "business associate' that performs various activities (e.g., billing, transcription services). Whenever an arrangement between a business associate and us involves the use or disclosure of your protected health information, we will have a written contract that contains terms that will protect the privacy of your protected health information.

YOUR RIGHTS REGARDING YOUR HEALTH INFORMATION

You have the following rights with respect to your protected health information, which you can exercise by presenting a written request to the Privacy Officer:

- The right to request restrictions on certain uses and disclosures of protected health information, including those related to the disclosure of family members, other relatives, close personal friends, or any other person identified by you. I am, however, not required to agree to a requested restriction. If I do agree to a restriction, I must abide by it unless you agree in writing to remove it.
- The right to ask me to communicate to you in a confidential way, such as by phoning you at work rather than at home or by mailing health information to a different address. Please provide a written request.
- The right to ask to see or to get photocopies of your health information. You may have to pay for photocopies in advance. I do charge a fee to release your records to an outside source other than a healthcare provider (examples are lawyer, healthcare research firm, etc.). Please complete my written records request for billing or medical record release.
- The right to receive an accounting of disclosures of protected health information.
- The right to amend your protected health information.
- The right to obtain a paper copy of this notice from me upon request.

I am required to abide by the terms of Notice of Privacy Practices and to make the new notice provisions effective for all protected health information that I maintain. I will post and you may request a written copy of the revised Notice of Privacy Practices form this office.

You have the right to file a formal, written complaint with me at the address below, or with the Department of Health and Human Services, Office of Civil Rights, in the event you feel that your privacy rights have been violated. I will not retaliate against you for filing a complaint.
